Design & Structure

- ① on/off
- ② pause
- ③ LED(button)
- ④ end(signal)
- ⑤ reset
- ⑥ beep
- ⑦ button
- ⑧ digital display

Design & Structure

- ① on/off
- ② pause
- ③ LED(button)
- ④ end(signal)
- ⑤ reset
- ⑥ beep
- ⑦ button
- ⑧ digital display

Top-level Schematic

Modules:

- ① ctrl
- ② digi_Display
- ③ freq_divider
- ④ beep_driver
- ⑤ digi_trans_sub

How to play ?

- Arbitrary digits will turn on, seg-by-seg, with BGM
- Push the corresponding button when the 7th segment's on
- Make it → gain 1 point ; Mis-push → lose 1 point
- The score is shown at the end of the music
- Pause/Reset anytime you want
- A little tough (negative score possible!)
